FULLSTACK DEVELOPER

ABOUT ME

I am a passionate and highly motivated web developer with experience in creating quality digital solutions. With knowledge of programming languages like HTML, CSS, and JavaScript, along with experience in frameworks like React, I've worked on diverse projects ranging from corporate websites to interactive web applications. My focus is on clean and responsive design, intuitive usability and performance optimization. In addition, I have skills in backend development using technologies such as Java, frameworks such as Spring Boot, knowledge of Hibernate and databases such as MySQL and MongoDB. I am an effective communicator and collaborative team member, able to work independently and manage multiple tasks effectively. I am constantly looking for opportunities to learn and stay up to date with the latest trends and developments in the web development industry. I am excited to contribute my experience and skills to a dynamic team where I can continue to grow professionally.
